# Funeral Wishes

---

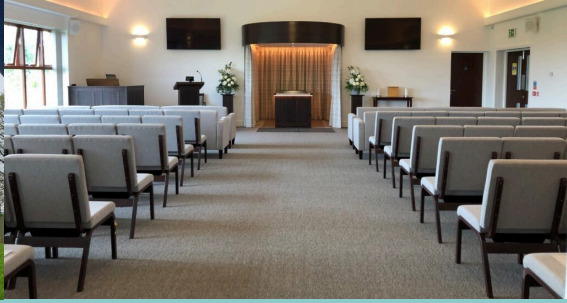

Have you ever thought about your funeral and what you want? There are many questions such as burial or cremation, religious or non-religious and what music do I want playing?

By planning ahead using this Funeral Wishes guide, not only will you save your next of kin the stress of trying to know what you would have wanted, but it also gives you the opportunity to make this last celebration your own.

Once complete, you can keep safe at home or with a next of kin. Alternatively you can give this back to us at Roseberry Funeral Service. We will keep all your details and wishes private until the time of need.

Complete this to include as much or as little detail as you wish. If your wishes change over time, please let me know so that we can keep all details up to date. These can be changed as many times as suits you.

## Roseberry Funeral Service

*Providing a personal and attentive service, when you need it most*

The value of "offering a personal and sensitive service when you need it most" is extremely important to everyone at Roseberry Funeral Service. We originally launched in Redcar in December 2014. This quickly led to the creation of a second location at Marske in 2015, and we have been expanding ever since. We opened our third location in Guisborough in 2022, and we have grown over the years to include a fleet of limos and hearses in addition to a dedicated private ambulance. We are always considering ways to enhance the services we provide and to guarantee that each funeral is distinctive and properly priced.

We have been proud supporters of "Dying Matters" and recording your funeral wishes for many years. We feel it is important to have it recorded exactly what YOU want. The difference we see in families when the time comes is profound. They know that they are creating what you wanted, and that is what is important.
